

Developing High Quality Clinics:

This year we are working to not only instill passion in students but promoting skill building and forming strong foundations in terms of operations and delivery of care. We want to help clinics to build the skills they need to start off strong and continue to provide high quality care in existing clinics. The workshops are designed to formalize operations, streamline care, and develop clinic staff

Workshops will include topics such as:

- ❖ Grant Writing
- ❖ Developing Operational Foundations
- ❖ Starting New Clinics
- ❖ Expanding Clinics
- ❖ Patient Advocacy
- ❖ Interdisciplinary Care

Mission:

The Society of Student Run Free Clinics will develop an international professional platform for student-run clinics through both an annual conference, website, and newsletter in order to increase communication, to foster the sharing of ideas, to collaborate on research, to provide funding resources, and to expand the existing scope of clinics as well as cultivate the growth of new ones.

Vision:

SSRFC aims to become a national, collective voice representing student-run, free clinics. Our vision is to promote and support the existence of student-run clinics at every health science center. Through our unified strength, we aim to advocate for both resources and health policy that benefits our patients, and to develop a national network to help sustain student-run, free clinics. We truly strive to be an interdisciplinary organization and welcome members from all aspects of healthcare including medical, osteopathic, dental, physical therapy, pharmacy, or any group that has a student run clinic.

What is a student-run clinic?

A service-learning student driven outreach project in any discipline that strives to enhance the health and well being of a community.

**National Student Run Clinic
Conference 2010
Jacksonville Florida
January 30 – 31**

Creating High Quality Clinics in Our Communities

**We encourage
all disciplines of health professions to
attend including MD, DO, PT, Pharmacy,
Nursing, and whoever else
is interested!**

Supported by:

<http://www.studentrunfreeclinics.org>

How to Register:

Registration Fee: \$75

This includes all Saturday SSRFC workshops, breakfast, lunch, snacks, and access to STFM workshops on Sunday. Please make sure you register only for the student portion to get this price. If you have any problems feel free to contact us.

To register please go to:

<http://www.studentrunfreeclinics.org/>
and then click on resources/events

Call for Presentations:

Our call for presentations is separate from STFM's and is open to everyone. We plan to have workshops addressing issues in all realms of health professional and allied health sciences based on your proposals. There will also be a poster session to present your clinic models. Please submit poster and workshop proposals to:

ssrfclinics@gmail.com

Make sure to include Workshop/Poster title, your school's name, presenters, goals, format of workshop, teaching points, as well as how your proposal

aligns with the theme of high quality clinics. Also include if you will need Audio-visual equipment. If your poster presentation is unique we may ask you to do a brief presentation to share with the group. We encourage every school to bring a poster for the poster session about their clinic model

Join SSRFC!!!

Students from all health disciplines are invited to join!

To join please go to our website <http://www.studentrunfreeclinics.org/> and register your clinic and or yourself. Students who are starting clinics are welcome to join as a student member. There are no membership fees. We ask that existing clinics please set up a profile as a way to share your clinic model with the world and open lines of communication.

Our Website has clinic profiles, newsletter archives, discussion forums, health policy/advocacy links, and much more.

News letter:

If you would like to submit a newsletter article about something your clinic is doing or have your clinic profiled please email the article and photos to ssrfclinics@gmail.com with Newsletter in the subject.

Board Elections:

At this year's conference there will be elections for the new leadership of SSRFC. If you are interested please e-mail us in advance and be prepared to do a brief presentation about your ideas for the future of SSRFC. Leadership consists of:

1 national director: who will lead the team and make sure the year's goals for the society and conference are met.

3 student National Coordinators: who will liaison with STFM and develop next years conference.

2 -3 Newsletter editors: who will collect, compile and distribute our quarterly newsletter

1 – 3 Information Technology Leaders: who will continue to develop our website and update it with new links, newsletters, etc.

We also have a working group e-mail list for all students interested in helping out.

*STFM is helping to host the Society of Student-Run Free Clinics 2010 conference but we are an independent organization. We encourage students from all aspects of healthcare involved in student-run clinics to attend. **We would like to sincerely thank STFM for all their help and support!***
